📄 PROFILE

Around 4+ years of IT experience with Tech Mahindra. My technical skills are majorly in Software Testing and Web Development. Decent domain knowledge in the Telecom industry.

Over 1+ years of experience in web application development using Python, Django, and other web technologies.

Working in a variety of test phases like system test, system integration test, E2E test. Scripting in Python, PL/SQL to automate the test.

Have very good analytical, communication skills, able to deal with complicated projects, ability to understand complex designs, and creating high quality and timely working results.
